BATES, CHARLES C.

Residence: Green Valley, Arizona
Service: weather officer, U.S. Navy, Europe
Volume: 1"

Swell Forecast Section Final Report (1) [activities and investigations of the Swell Forecast Section, Admiralty, from February to August 1944; objects of the section were to provide sea, swell, and surf forecasts for the Allied invasion of Europe, and to test, apply, and develop the methods of wave forecasting]

Swell Forecast Section Final Report (2) [51 reporting stations situated along the south and east coasts of England transmitted three daily reports of wave height and period to the section in London; these reports provided synoptic information of existing wave conditions which was used as a basis for forecasts and furnished data for the investigation of wave phenomena; study concluded that North Atlantic swell, by the time it reached the invasion beaches, would be reduced in height by more than half the height near Cherbourg, and need only be considered when exceptionally heavy at Land's End; wave forecasts for the English Channel and adjoining sea areas were incorporated in the "OVERLORD" forecasts issued by Supreme Headquarters Allied Expeditionary Forces and Allied Naval Commander, Expeditionary Forces, before and throughout the operation]

Swell Forecast Section Final Report (3) [contains a number of technical papers dealing with the following subjects, the technique of forecasting sea, swell, and surf, a rapid method of forecasting ocean swell, the accuracy of the basic forecasting data, the change in wave height from deep to shallow water, methods of obtaining wave information, effect of tides, tidal currents, bars, and shoals on wave heights, wave refractions]

Swell Forecast Section Final Report (4) [a number of synoptic weather episodes for which wave computations have been worked out in detail by the methods of both Sverdrup and Suthons and compared with observed values; in the appendix are collected full descriptions of the reporting stations, a paper on codes, an account of a method of measuring wave height and length with graticuled binoculars, together with diagrams and other supplementary material; remainder of reports goes on to tell more in depth of the investigation into the project of "OVERLORD" and the use of the sea for success in this operation]

BAUER, ROBIN

Residence: Shawnee, Kansas

Service: Material collected by her grandmother during 1930s

Volume: -1"

Papers [photos and clippings of troops and ships in Hawaii, 1931-1932; post cards and newspaper articles re the 19th Infantry]
