

DWIGHT D. EISENHOWER LIBRARY
ABILENE, KANSAS

White House Social Office: Records, 1952-61
General Correspondence Series

Processed by: DMH

Linear feet of shelf space occupied: 270

The General Correspondence Series, totaling over 500,000 pages, is a largely unprocessed series of the White House Social Office (the first 108 Boxes in the series have been processed). The General Correspondence Series contains a range of correspondence from private citizens to official correspondence from the White House Social Office to civic and national leaders. Documents in the series include letters, telegrams, newspaper clippings, birthday and holiday greetings, religious tracts, charitable gifts and letters acknowledging the receipt of letters and gifts.

Note to Researchers:

The White House Social Office was managed by the White House social secretary. The position of White House social secretary was held by Mary Jane McCaffrey during both terms of the Eisenhower Presidency.

The folder titles in this series are arranged alphabetically, but the surnames of the correspondents and subjects fall in between the folder names. For instance, the folder ALFRED is followed by the folder ALLEN. A letter from someone named Ali would fall alphabetically after Alfred but before Allen, and therefore would be housed in the ALFRED folder. The documents within the folders are not arranged alphabetically.

There is some interoffice office vocabulary found in the collection that is unique to The White House Social Office: Records, 1952-61, General Correspondence Series. For example, the "Yellow Gift File" refers to interoffice memos that were filed alphabetically under "gifts" using yellow colored paper. There is also some 1950's vocabulary (found in The White House Social Office: Records, 1952-61, General Correspondence Series) that has fallen out of general use. For example, a "Parcel Post Package Sale" is similar to a White Elephant fund raising event.

Photographs and artifacts found in this collection have been withdrawn for transfer to the Library's Audio Visual Department and the Museum. Currently this material is housed in three boxes at the end of the series.
