

WIGHT D. EISENHOWER LIBRARY
ABILENE, KANSAS

NEW YORK TIMES, WASHINGTON BUREAU: Newspaper Clipping, 1912-63

Accession: A66-17, A67-8, A71-30
Linear feet: 21
Approximate number of pages: 30,000

The Eisenhower-related newspaper clipping files were deposited in the Eisenhower Library in February 1966, August 1966, and September 1970 by the Washington Bureau of the *New York Times*. The articles were primarily published in the *New York Times*, but the name of the newspaper was often trimmed from the clipping by the Washington Bureau library staff. There are also occasional clippings from the *Chicago Daily News*, the *Washington Star*, the *Washington Post*, and the *Washington News*, and other publications. Occasionally small bits of an article appear to be missing from the saved clipping or, if a story was continued on another page, in some cases the continuation of the article was not saved by the *Times* staff.

Copyright is retained by the publishers of the clippings and articles, however, the originating newspaper is often not identified. The materials are arranged as they were received at the time of donation.

Accession A66-17, A67-8

Boxes 1-39

These clippings contain information relating to Dwight D. Eisenhower, as well as John Foster Dulles, Joseph Stalin, and Harold E. Stassen. The Eisenhower clippings are arranged in alphabetical and chronological subseries. The John Foster Dulles, Josef Stalin, and Harold Stassen clippings are arranged chronologically. The chronological clippings cover major events in the individuals' lives. For instance, for press coverage of World War II campaigns or the 1948 movement to nominate Eisenhower for President, refer to the files with the corresponding dates. The brittle clippings within these folders have been photocopied onto acid-free paper.

Accession A71-30

Boxes 40-45

Researchers should use caution when handling these clippings as they are folded into small manila expandable folders.
