Cooking was one of Dwight D. Eisenhower’s favorite hobbies. This series consists of his personal collection of recipes. These were either typed by his staff or clipped from print sources and pasted into the cookbook. Some recipes include the name of person who gave him the recipe. The recipes were organized alphabetically by type. The largest number of recipes is in the Meat category. Individual recipes include Eisenhower’s Vegetable Soup and Beef Stew; both were widely requested by the general public and reprinted in numerous newspapers.

NOTE: Recipes previously appearing in published sources may be subject to copyright restrictions.
