

SEATON, FRED A.: Papers  
Department of Defense Series

SCOPE AND CONTENT NOTE

Of the Fred Seaton papers received by the Eisenhower Library to date (March 1979) only three archives boxes, approximately 2,500 pages, deal exclusively with his activities as Assistant Secretary of Defense, 1953-55. Approximately 800 pages make up a file documenting Seaton's European inspection trip of September-October 1954. Included are itineraries and background information on countries visited as well as memos and cables regarding specific questions to be investigated, such as defense contracts. About 300 pages are devoted to the rivalry between "Stars and Stripes" and "Army Times" for supplying newspapers and other reading material to servicemen overseas.

The second subseries consists of miscellaneous bound material, primarily printed, tabbed reports and presentations related to various aspects of Seaton's job. Included are reports on Air Force military construction by state, attitudes toward a military service career, and the national reserve plan. Also included are carbon copies of the minutes of meetings of the DOD Public Information Coordinating Council, July 29, 1954 through February 10, 1955.

## CONTAINER LIST

Box No.    Contents
