

SEATON, FRED A.: Papers
Speeches Series

SCOPE AND CONTENT NOTE

The Fred Seaton Papers contain four subseries of material relating to speeches by Secretary Seaton or others. These have been combined to make up the Speech Series. The date coverage on this series is 1946 to 1963.

The first and largest subseries (approximately 40,000 pages) is titled "Speeches--Fred A. Seaton." It is a chronological file maintained for most of Fred Seaton's speaking engagements from 1946 to 1960. The speeches are related to his activities as a leader of the Republican Party in the plains states, as a top-level staff member of Eisenhower's 1952 presidential campaign, as Assistant Secretary of Defense for Legislative and Public Affairs, as a White House staff member, as Secretary of the Interior, and in private life as a newspaper publisher and radio/television station operator. Also evident are his interests in Hastings College, Kansas State University, and Beta Theta Pi fraternity. In addition to speech drafts this subseries contains correspondence regarding travel arrangements, social engagements and, occasionally, personal or official correspondence of a substantive nature regarding such things as politics, patronage, business ventures, and government policies. Seaton's extensive travel as Secretary of the Interior, both domestically and to U.S. territories, is well documented in this subseries. Also of particular interest is his trip to Cambodia in 1959 as the President's representative to the dedication of the Khmer-American Friendship Highway.

The second subseries of the Speech Series is titled "Miscellaneous Articles and Speeches." It is much less complete than the first subseries but contains articles by Seaton (in both published and draft form) as well as speeches. Also included is correspondence regarding speaking invitations which were declined. This subseries contains approximately 2,500 pages. Date coverage is 1953 to 1961.

The third subseries, titled "Speeches--Cabinet Members and Others," consists of five archives boxes of press release copies of speeches delivered by Cabinet members and various other top-level government officials between 1954 and 1960, organized by executive department and chronologically thereunder, and one box of miscellaneous speeches by a wide range of individuals both in and out of government.

The "Speech Material" subseries consists of ten archives boxes of speech texts, fact sheets, printed material, etc., arranged by subject in alphabetical order. The material dates from 1950 to 1963 and appears (because of the different types of original folder labels) to have been compiled from several sources. This material was presumably used as background information for speech writers. Subjects include a wide variety of topics related to Mr. Seaton's government and political activities.

SPEECH SERIES

Box No. Contents

- 1 MINDEN COMMENCEMENT 6/2/46
- CONGRESSIONAL RECORD: Speech re S.50 Statehood for Alaska
